

1

ENABLE TWO-STEP VERIFICATION

1. Tap Settings > Account > Two-step verification
2. Create a 6 digit pin. That's it, you have added extra security

2

NEVER SHARE CODES

* * * * *

1. Codes secure your account, treat codes as house keys and never share them as these are used to approve login access.

3

PROTECT YOUR DATA

1. Allow only your contacts to see your profile. Review all available privacy settings. Tap Settings > Account > Privacy > then select 'my contacts' on all listed options.
2. Stop unknown numbers from calling you > Privacy > Calls > Silence Unknown callers
3. Hide your data during a call (whilst in privacy) > Advanced > Protect IP address in calls
